DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 3-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3 (and all claims dependent thereon) are indefinite because the component X has not been defined.

Claim Rejections - 35 USC § 103

2. Claims 1, 2 and 12-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rath et al. (US 6,133,209) for the reasons set forth in item 5 of the Office action mailed 5/20/2005.

Double Patenting

3. Claims 1, 2 and 12-14 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-19 of U.S. Patent No. 6,133,209 for the reasons set forth in item 7 of the Office action mailed 5/20/2005.

4. Applicant's arguments filed 10/24/2005 have been fully considered but they are not persuasive. Applicants argue that Rath '209 is not a proper reference in view of

Art Unit: 1713

purported differences in terminal and internal functionality between the precursor compounds of the reference polymer versus the claimed polymer. However, precursor compounds are not being claimed, and it is further noted that the claims do not specify that the polymer is a terminal polyisobutenamine. In fact, the structures of the resultant polymers are described in both the instant claims and in the reference (see patented claims 8 and 1) in a substantially identical manner. Specifically, in both the reference and the instant claims the structure of the polymer is R-X, wherein R is polyisobutene and X comprises an optional intervening structure terminated by NR_1R_2 . Furthermore, both structures have $M_w/M_n < 1.3$ and M_n of 500-1500. Given such striking similarity, neither applicants' newly specified product-by-process limitations nor their discussion of unclaimed features is sufficiently persuasive to conclude that the claimed polymers are patentably distinct from those of the reference.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
